

**EDGESINKS**  
by LANSEN

# Seamless integration is a beautiful thing.

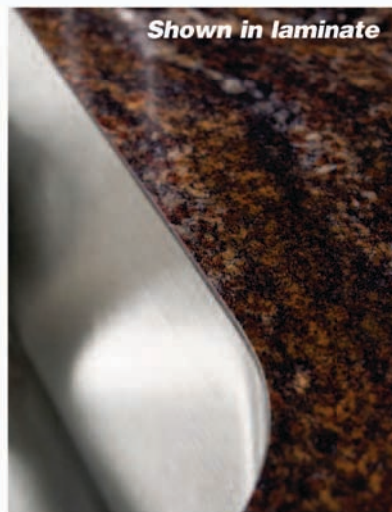

**EDGE is a revolutionary leap forward in the design of a stainless steel sink. Gone is the traditional rim.**

In its place, a unique resin matrix specifically designed for seamless integration in laminate, solid surface and stone. No longer do you need a rim, an overhang or a reveal in your sink installations. Pure seamless integration is now achievable with the new Edge sinks by Lanser.
